

*“As a third generation family-run business, we are a proud sponsor of the **Can Do! Business Partner Program**, benefiting the children of the community in which we both live and work. During the past six years this has been an effective partnership resulting in numerous new client relationships.”*

April 2011

Greg Berlin, Owner
Northgate Garage Doors, Inc.

Invest in your community and promote your business at the same time by supporting our local schools. **Can Do!** is the education foundation for the Dixie School District, serving over 1,300 families of K-8 students from Terra Linda, Marinwood, and Lucas Valley. Our mission is to work with the local community – businesses, parents, and the District – to ensure that the arts, technology, elementary physical education, and middle school counseling remain a fundamental part of every student’s education.

Let us help you grow your business. Join the over 130 businesses that support **Can Do!**. You will receive recognition for your business in the district-wide directory, at fundraising events, and on the **Can Do!** website.

During this time of drastically reduced government funding for public education, it is more important than ever that we work together to keep our schools strong and thriving. Please join us in our quest to preserve the high standard of education in the Dixie School District. Partnership opportunities are presented in the enclosed flyer. In the coming weeks, a **Can Do!** representative will contact you regarding this business partnership opportunity.

If you have any questions, feel free to contact us at 415.492.3500 or info@cando4schools.org.

Parents in our local community pay attention to and patronize businesses that support our schools.

Sincerely,

Robin Gerrity
